Product Summary

Nutrivit Dietary Supplement is an essential multivitamin liquid supplement that also works as an appetite stimulant, mineral supplement and aids in folic acid deficiencies. Folic acid is used in the prevention of concomitant folic acid deficiency (as may be seen in tropical and non tropical sprue), in anemia of nutritional origin, pregnancy and childhood. Nutrivit has no sugar, no alcohol and no saccharine and contains a specially prepared base of sorbital solution (70%), glycerine, propylene glycol, methylparaben, citric acid, propylparaben, potassium sorbate, caramel flavor, caramel color, aspartame and purified water.

Dye, Sugar, Alcohol, and Saccharine FREE! Multivitamins Hematinic with Lysine.
